DETAILED ACTION

1. Amendment D filed on 4/24/03 has been fully considered and made of record in Paper No. 12.

Drawings

2. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on 4/3/02 has been approved by the examiner. A proper drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowance subject matter: the prior art of record does not teach or suggest the combination of a substrate with a stack of concentric metal layers alternating with dielectric layers on the substrate, wherein the metal layers are coupled with one another by a plurality of via plugs in the dielectric layers. The via plugs placed in alternating manner with respect to one another through the stack. The concentric metal layers reduce the capacitance by reducing the area of the substrate overlapped by the metal layers in claims 26 and 28.

plugs through the dielectric layer. The bond pad is aligned with a doped region in the substrate and the metal layers are concentric to reduce the capacitance by reducing the area of the substrate overlapped by the metal layers in claims 30, 36, and 39.
